INDEPENDENT AUDITOR'S REPORT

Board of Directors
The Wallace State Community College
Future Foundation, Inc.

We have audited the accompanying financial statements of The Wallace State Community College Future Foundation, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2020 and 2019, and the related statements of activities, functional expenses and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Wallace State Community College Future Foundation, Inc., as of June 30, 2020 and 2019 and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements June 30, 2020 and 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Organization

The Wallace State Community College Future Foundation, Inc. (the Foundation) is a nonprofit corporation that assists Wallace State Community College (the College), a public institution of higher education, in the advancement of the educational objectives of the College, including the encouragement and subsidization of its students and faculty.

Basis of Accounting

The financial statements of the Foundation have been prepared on the accrual basis of accounting which conforms to accounting principles generally accepted in the United States of America (U.S. GAAP).

Net Assets

Net assets, revenues, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

- Net assets without donor restrictions Net assets available for use in general operations and not subject to donor restrictions.
- Net assets with donor restrictions Net assets subject to donor-imposed restrictions. Some donor restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires. That is, when the stipulated time has elapsed; when the stipulated purpose for which the resource was restricted has been fulfilled; or both.

Donated Services, Materials and Facilities

Donated goods are reflected as contributions at their estimated fair market value at the date of donation. The Foundation receives donated services from a variety of unpaid volunteers assisting the Foundation in fundraising and other programs. No amounts have been recognized in the accompanying statement of activities because the criteria for recognition of such volunteer efforts under U.S. GAAP has not been satisfied.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Foundation considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents.

Notes to Financial Statements June 30, 2020 and 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Contributions and Pledges Receivable

Unconditional promises to give are recognized as revenue or gains in the period received and as assets, decreases of liabilities, or expenses depending on the form of the benefits received. Conditional promises to give are recognized only when the conditions on which they depend are substantially met and the promises become unconditional.

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as donor-restricted revenue that increases net assets with donor restrictions. When a restriction expires, donor-restricted net assets are reclassified to net assets without donor restrictions and reported in the consolidated statement of activities as net assets released from restrictions.

Pledges receivable represent unconditional promises to give and are recorded at the present value of the estimated future cash flows. The discounts on these amounts are computed using a risk-free interest rate applicable to the year in which the promise is received. Amortization of the discounts is included in contributions revenue. Conditional promises to give are not recorded as pledges receivable until such time as the conditions are substantially met.

Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual accounts. Balances still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable or pledges receivable. There was no valuation allowance for pledges receivable at June 30, 2020 and 2019.

Investment Valuation and Income Recognition

The Foundation follows Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures as well as subsequent guidance in Accounting Standards Update (ASU) 2015-12 Plan Accounting Defined Contribution: (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Expedient.

The year to year increase or decrease in value of investments is reflected in the accompanying statements of activities and changes in net assets. Realized gains and losses on the sale of investments are calculated based on the specific identification method.

Land

Land is carried at the estimated fair value at the date of the gift less depreciation, where applicable.

Notes to Financial Statements June 30, 2020 and 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Functional Expenses

Program services and activities that result in goods and services being distributed to beneficiaries that fulfill the purposes or mission for which the Foundation exists. Those services are the major purpose for and the major output of the Foundation.

Supporting services are all activities other than program including management and general and fundraising activities. The allocations have been based on related financial data. The expense allocation methods are reviewed by management and revised when necessary to reflect significant changes in the nature or level of the personnel, the use of space and the consumption of supplies.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

The Internal Revenue Service (IRS) has determined that the Foundation is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. It qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization other than a private foundation under Section 509(a)(2). The Foundation is subject to income taxes on any net income that is derived from a trade or business, regularly carried on, and not in furtherance of the purposes for which it was granted exemption. The Foundation has no income from an unrelated trade or business and therefore there is no income tax provision provided for such activities.

The Foundation follows the provisions of FASB ASC Topic 740, *Accounting for Uncertainty in Income Taxes*. As of June 30, 2020, the Foundation had no uncertain tax positions that qualify for disclosure in financial statements. The Foundation files an annual Form 990 with the IRS and its tax returns for previous open tax years may be subject to examination by taxing authorities.

Notes to Financial Statements June 30, 2020 and 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13 Fair Value Measurement (Topic 820); Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement as part of the FASB's disclosure framework project. This project's primary focus is the improvement of the effectiveness of fair value disclosures in the notes to the financial statements. Under ASU 2018-13, nonpublic entities are no longer required to complete a reconciliation of the opening balances to the closing balances of recurring Level 3 fair value measurements. Rather, such entities are required to separately disclose for these Level 3 fair value measurements only changes during the period attributable to (1) purchases and issues (each type separately) and (2) transfers into or out of Level 3 (each type separately, and the reasons for those transfers must also be disclosed). The effective date is for fiscal years beginning after December 15, 2019. It is to be applied prospectively and may be early adopted. The Foundation has evaluated its investments and determined that this standard will have no effect on the Foundation or related financial statement disclosures.

Reclassifications

Certain reclassifications have been made in the previously reported financial statements to make prior year amounts comparable to those in the current year. Except as noted, such reclassifications had no effect on previously reported net assets or changes in net assets.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Notes to Financial Statements June 30, 2020 and 2019

NOTE 2 – LIQUIDITY AND AVAILABILITY

Liquidity required to award scholarships is provided by non-endowment donor contributions generally made to specific scholarship funds and returns on the Foundation's investment portfolio. The bulk of the investment portfolio is comprised of marketable securities that can be redeemed as needed.

Operating liquidity is funded by contributions made by individuals and businesses. This source of income can be used to fund operations to the extent that the contributions have no restrictions. The table below presents the Foundation's financial assets available for general expenses within one year of the statement of financial position date:

T-1		
Hinar	າຕາລໄ	assets:

Cash and cash equivalents	\$	339,620
Promises to give due in one year, net		182,390
Investments		3,640,696
Dividends receivable	-	443
Total financial assets available at June 30, 2020		4,163,149
Less amounts not available to be used within one year due to:		
Net assets with donor restrictions		(4,323,413)
Accounts payable	-	
	-	(4,323,413)
Deficit of financial assets available to meet general expenses within one year	\$ _	(160,264)

NOTE 3 – FAIR VALUE OF FINANCIAL INSTRUMENTS

The Foundation follows ASC 820, *Fair Value Measurements and Disclosures*. In accordance with ASC 820, fair value is defined as the price that the Foundation would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs, and to establish classification of fair value measurements for disclosure purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

Notes to Financial Statements June 30, 2020 and 2019

NOTE 3 – FAIR VALUE OF FINANCIAL INSTRUMENTS – Continued

The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Foundation's own assumptions in determining the fair value of investments)

Assets and liabilities measured at fair value are based on one or more of the three valuation techniques noted in the guidance. The three techniques are as follows:

<u>Market approach:</u> Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

<u>Cost approach:</u> Amount that would be required to replace the service capacity of an asset (i.e. replacement cost); and

<u>Income approach:</u> Techniques to convert future amounts to a single present amount based on market expectations utilizing present value techniques.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Foundation believes its calculation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Foundation's assets that are measured at fair value on a recurring basis as of June 30:

	2020	_	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Money market funds	\$ 50,233	\$	50,233	\$ -	\$ -
Mutual funds	3,590,463	-	3,590,463		
Total investments	\$ 3,640,696	\$	3,640,696	\$ -	\$

Notes to Financial Statements June 30, 2020 and 2019

NOTE 3 - FAIR VALUE OF FINANCIAL INSTRUMENTS - Continued

	2019	_	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Money market funds	\$ 59,738	\$	59,738	\$ -	\$ -
Mutual funds	3,314,869	-	3,314,869		
Total investments	\$ 3,374,607	\$	3,374,607	\$ 	\$

The following is a summary of significant valuation techniques for assets and liabilities measured at fair value on a recurring basis:

Level 1 measurements

<u>Mutual funds:</u> Comprised of pools of money received from many investors which is managed by an investment company. Investments include stocks, bonds or other assets. Valuation is based on unadjusted quoted prices for identical assets in active markets that the Foundation can access.

NOTE 4 – PLEDGES RECEIVABLE

Unconditional promises to give are as follows at June 30, 2020:

Receivable in less than one year	\$ 182,390
Receivable in one to five years	121,070
Total unconditional promises to give	303,460
Less discounts to net present value at 4.0%	(18,799)
Net unconditional promises to give	\$ 284,661

Unconditional promises to give are as follows at June 30, 2019:

Receivable in less than one year	\$ 200,000
Receivable in one to five years	277,565
Total unconditional promises to give	477,565
Less discounts to net present value at 4.25%	(35,217)
Net unconditional promises to give	\$ 442,348

Notes to Financial Statements June 30, 2020 and 2019

NOTE 5 – ENDOWMENT

The Foundation's endowment consists of donor-restricted funds established for a variety of purposes. As required by U.S. GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Board of Directors of the Foundation has concluded that absent explicit donor stipulations to the contrary, fiduciary standards require the preservation of the "historic dollar value" of donor-restricted endowment funds. "Historic dollar value" as to any donor-restricted endowment fund means the aggregate fair value of (a) the original value of gifts donated to such fund, (b) the original value of subsequent gifts to the such fund, and (c) accumulations to such fund made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. Accordingly, the Foundation classifies the historic dollar value of a donor-restricted endowment fund as permanently restricted net assets. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed in Alabama Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). Notwithstanding the foregoing accounting classifications, unless the gift instrument creating a donor-restricted endowment fund expressly provides otherwise, the board of the Foundation may, as provided in Alabama UPMIFA, from time to time, appropriate for expenditure such portion of the permanently restricted net assets that it determines is prudent.

The Foundation has adopted investment and spending policies approved by the Board of Directors for endowment assets to be held with the intent to provide support for the Foundation's mission over the long term. The primary investment objectives are to preserve the real purchasing power of the principal and provide a stable source of perpetual financial support to beneficiaries in accordance with the Foundation's spending policy. In order to achieve these objectives, the long-term rate of return required is the inflation rate plus the Foundation's current spending rate. Actual returns in any given year may vary from these established rates of return.

Under the terms of the Foundation's governing documents, the Board of Directors has established an Investment Committee to ensure that endowment assets are invested with skill, care, prudence and diligence. This committee selects an external investment manager to manage endowment investments. The investment manager is subject to a standard of fiduciary prudence and responsibility and discretion over the investment of the funds they manage.

The Foundation's spending policy mandates distributions during the fiscal year will be up to 5% of the three-year average of the market values of the funds.

Notes to Financial Statements June 30, 2020 and 2019

NOTE 5 – ENDOWMENT – Continued

Interpretation of Relevant Law (Continued)

The following analysis shows the changes in the endowment net assets for the year ended June 30, 2020:

Endowment net assets, beginning of year	\$ 2,537,344
Contributions	 277,976
Endowment net assets, end of year	\$ 2,815,320

NOTE 6 – CONCENTRATION OF CREDIT RISK

The Foundation places its cash balances with financial institutions insured by the FDIC. At times, cash investments may exceed the insured limits.

NOTE 7 – RELATED PARTY TRANSACTIONS

The Foundation utilizes office space and employees of the College. No rent or salary is paid to the College by the Foundation and no value has been recognized in the financial statements.

NOTE 8 – SUBSEQUENT EVENTS

The Foundation evaluated its June 30, 2020 financial statements for subsequent events through the date the financial statements were issued. As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which are likely to negatively impact or delay anticipated future earnings. Other financial impacts could occur and are uncertain at this time.
